EPIPHONE

HAS RECEIVED THE METICULOUS
ATTENTION OF ELECTRICAL EXPERTS
IN OUR FACTORY..... IT IS THE
FIRST PERFECTED ELECTRIC GUITAR
THAT PERFORMS ON BOTH AC AND
DC CURRENT..... IT IS BUILT ON
THE SAME FINE STANDARDS AS

Electar

Electar Amplifiers are of the latest type employing three stages of amplification and are made to accommodate two instruments. Complete with detachable line cord, switch and fuses. They may be had in combinations for the use of high fidelity crystal microphone with volume and tone controls for microphone input similar to public address systems.

For AC or AC DC amplifiers to accommodate crystal microphone in addition to two instruments add \$25.00 to price of outfit.

Crystal microphone and chromium plated stand \$35.00 additional.
