The instruments shown in this folder are the products of one of the oldest and largest fretted instrument manufacturers in the world. While the skill and craftsmanship in the construction of the guitars goes all the way back to 1873, the most modern, scientific methods are used in designing, graduating and testing. These products are fully guaranteed. The broad guarantee covering them is evidence of the makers' faith in their absolute perfection. The world's foremost guitarists use the EPIPHONE in their highly paid radio, screen and night club work.

Complete, detailed information on the entire EPIPHONE line is available in catalog form. Ask your dealer or write direct to
